College Council Representation

As you would be aware, elections for parent representatives on College Council concluded this week. I would like to congratulate Jade Howell who renominated and would like to welcome Ren Thoenes and Shawn Macgowan as first time members of the College Council. There is still one vacant parent position. Please contact me at the College if you are interested in becoming a parent representative or have any questions regarding the role. The first meeting of the new council will be held in the last week of this term, on Wednesday 3rd April.

You representatives on College Council for 2019 will be as follows:

Susan Crisp-*Parent*

Jade Howell-*Parent*

Jo McNytre-*Parent*

Melissa Brown-*Parent*

Linda Lewis-*Parent*

Kaleena Kneebone-*Parent*

Shawn Macgowan-*Parent*

Ren Thoenes-*Parent*

Vacant-*Parent*

Amy Rogers-*Student*

TBC-*Student*

TBC-*Friends of the P12 College*

Zlatko Pear-*Principal*

Barry Holden-*Assistant Principal*

Jenni Gardner-*Staff*

Ladeane Lindsay-*Staff*

Myrtleford Festival – College Float

Despite the eventual rain, I am confident that everyone enjoyed the festival parade on Sunday. It was another fantastic community event! I was very proud of the large number of students who represented our College and would like to also thank the staff who attended - Well done to all involved.

Myrtleford P12 College is a Child Safe School.

All our Child Safe policies can be accessed on the College website.

O&M SWIMMING

A small but talented team of students competed in the annual Ovens and Mitta Swimming Carnival last Thursday—with some outstanding results given the size of our team. Amy Gunson and Lani Cousins were certainly the ones to beat, with both girls having podium finishes in a multitude of races and consequently being awarded the age champion medallions for their respective age groups. Ned Pascoe had a brilliant swim in the 50m backstroke finishing in second place. We fielded two relay teams who put in a gallant effort. The 16 year girls team were competitive in the medley relay (3rd) and pushed hard to finish second in the 4 x 50m freestyle relay. Good luck to our Hume qualifiers next week!

Kate Sanderson

Year 11 Students Attend International Women’s Day Breakfast

On Thursday 7th of March, myself and five other Year 11 girls (accompanied by Ms Macrae) were invited to attend a breakfast event at Alpine Gate to celebrate International Women’s Day. We heard from a couple of fantastic speakers (Helen Haines, a midwife and nurse-educator, and Cath Watter, Principal of Marian College) who shared their life stories with us, and the issues they’d faced because of the fact that they were born female. It was a really inspiring event and a great way to start the day.

-Briana Hines, Year 11

Emily Cossor, Zali Young, Rebekah Chisholm, Tara Brown and Briana Hines meet with Helen Haines and Cath Watters at the International Women’s Day Breakfast

COLLEGE ANNOUNCEMENTS

NATIONAL RIDE2SCHOOL DAY 2019
FRIDAY 22 MARCH

Myrtleford P12 College

are excited to be celebrating **National Ride2School Day on Friday 22 March 2019.**

In the spirit of embracing a healthy and happy start to the day, we encourage all students and their families to leave the car at home and give riding, walking, scooting or skating to school a go.

National Ride2School Day is the perfect opportunity to kick-start new healthy habits and promote the many benefits of active transport for our community.

If you can't actively travel the whole way, consider parking the car nearby and riding or walking the rest of the way.

It's going to be a wheelie good day and we hope to see you there!

TOUR DE CURE

Last week I finished the gruelling 4 day charity cycling event in the High Country to raise much needed funds for Cancer research. Thanks to all the staff that generously donated to my fundraising campaign. I raised \$320, so thank you to everyone. The ride was particularly tough on Saturday and Sunday, as these days were the big mountain days over Mt Hotham and Falls Creek via Omeo. Overall a great experience and an opportunity to get involved for a great cause.

Clint Slotegraaf

Canteen

Open- Monday, Thursday and Friday
Closed- Tuesday and Wednesday

Students will need to bring food from home on the days the canteen is closed.

 Marita De La Rue & Jo McIntyre

We are looking for volunteer helpers!!

Do you have some free time during the week?

Are you willing to assist students with their reading?

Do you have your working with children's check?

We are looking for volunteer helpers to assist with Reading Intervention across the school from Foundation to Year 6. If you are interested and would like to know more, please send an email to Mrs. Lindsay at lindsay.ladeane.l@edumail.vic.gov.au for more information.

With thanks, Ladeane Lindsay

Prep students reading in Library with our Year 6 buddies...

PREP AH

Sarah- Tahlia was reading with us. I felt happy when I was there.

Jacob- When Declan was reading, there was a tiny platypus and I was the only one who saw it. Platypus starts with 'P'.

Emerson- My buddy helped me choose the book. When I got the book, my buddy said he read it when he was little. I really like my buddy.

William- I love my buddy. He read me a story and I took it home.

Isabel- The book we were reading was 'The Working Dog'. Mia also read the hippo one.

Tayla- We read great books. One was about a girl singing with a flute. I felt very happy.

Ruby- We read Goldilocks. We helped to read because we knew some of the story. We knew about the porridge and Goldilocks trying the beds.

Jamee- In the story, a little girl had a crocodile with her. I liked it.

Savannah- The story that my buddy was reading to me was called 'King Pig'. I was reading with Lakota and Giaana. I really had fun.

Lakota- The little sheep needed some clothes because the pig shaved all their wool off because he wanted to make pretty clothes for him and he was not nice. Then he became nice.

Seth- I liked going to the library because I like reading lots and lots of books.

Porter- The dog built stuff. It built a big giant tower. He got happier and happier working.

Giaana- The pig was naughty to the sheep. The sheep got dressed.

Hunter- I liked Sam reading to me. The story was so funny.

Charlie- The story was about a snake, a wombat and a fish.

PREP LH

Paige – I liked when Amber read the story about glasses.

Logan – I loved the pet story.

Joseph – I loved reading!

Alex – I saw a funny book.

Isabella – It was fun because my buddy read a book to me.

Charlotte – Isabella's buddy was reading books to us. It was so fun!

Hayley – Isabella's buddy read to me.

Ruby – I loved reading books with my buddy.

Michaela – I had a story with Shyanne and my buddy. It was so fun!

Shyanne – There was a good book about a girl who had to balance on a wire.

Ali – I liked that it was nice and quiet.

Marley – My buddy wasn't there, but someone else read me a good story.

Billy – Hunter's buddy read to Joseph and me.

Sophie - I got a funny book about a silly dog that did silly things.

The Year 8 science class had an opportunity to investigate a cow's pluck; the heart, lungs and oesophagus of a cow.
Thanks to Waitey's butchery for the donation of the pluck.

Busy time with Science at the College!

SCIENCE

YEAR 11 and 12 CHEMISTRY

Year 11 and 12 Chemistry students have been studying chemical reactions. The reaction shown in the photograph above shows what happens when a mixture of iron oxide and aluminium is ignited. Molten iron at a temperature of about 1500 degrees is produced.

Darrel Perkins

Charlotte Martin and Amy Rogers

Grace McGurgan, Briana Hines and Zali Young

VCE Biology Workshop

On Monday 4th March, the Year 11 Biology class travelled to Wangaratta to attend a workshop run by the Gene Technology Access Centre, from Melbourne, alongside other students from the district. Students used microscopes to investigate the cells of a variety of living things. They also got to chat to the facilitators, who were young researchers in diverse fields such as Immunology, Neurobiology and Embryology.

Robogals Science & Engineering Day 2019 MELBOURNE

Date: 20th April 2019, Saturday

Time: 10AM - 2PM (Arrive at 9.30am for 10am start)

Location: Monash University, Wellington Road Clayton, VIC 3800, Australia

Register here: <http://tinyurl.com/melbourne-sed>

For more info contact the Science Challenge Team:
scichal@robogals.org

SCIENCE CHALLENGE 2019

Competition Guidelines

Challenge information

The Robogals Science Challenge is an Australia-wide STEM competition for girls ages 5-15. It aims to promote innovation and exploration through hands-on projects, which can be completed with a friend, parent, or mentor.

The competition format has two main Challenges. Girls are required to complete at least two Minor Challenges before being eligible for the Major Challenge.

What are Minor Challenges?

A series of mini projects related to various STEM disciplines will be released. Participants should complete at least two before being able to progress to the next stage of the competition.

Alternatively, the girls can attend a Science and Engineering (SED) Day Workshop (held in most Australian states in April and July), which counts as successful completion of two Minor Challenges.

What is a Major Challenge?

The Major Challenge requires participants to create their own research task and produce a video to show their findings. Participants are free to choose a topic within STEM.

What are the age categories?

Participants are entered into one of three age divisions:

- Junior: 5 - 8 years of age
- Intermediate: 9 - 12 years of age
- Senior: 13 - 15 years of age

Entries to the competition are to be submitted online as videos, photos, and writing.

For more information and details about the challenge, visit:

<https://sciencechallenge.org.au/>

GTAC visit

We were very lucky to have six visiting scientists travel to Myrtleford P12 College on Wednesday 6th March, all the way from the Gene Technology Access Centre in Melbourne. They worked with our Grade 5 and 6 students for the day and gave us the opportunity to learn about how cancer affects normal cell function and how difficult it can be to treat cancer cells in the body. GTAC also brought along their Nao robot – which is able to listen and respond to voice commands. Nao is very good a tai-chi – who would’ve thought?!

Our students were given the task to deliver medicine to cancer cells, using robotics. They learnt about coding and used a drag and drop platform to code their own robot. Coding is a skill that employers are increasingly wanted to see. It’s also a great way for students to build their logical thinking. It was wonderful seeing students working together in small teams to solve the problem.

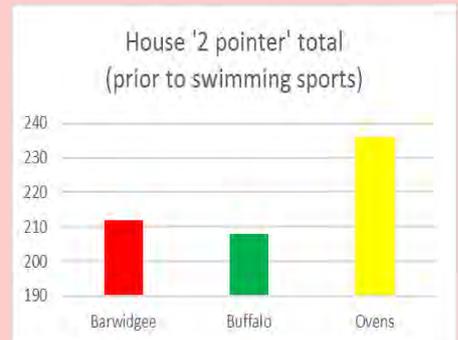

Ms Vlahandreas

7-12 NEWS with Jenni Gardner

7-12 Positive Acknowledgements – 2 pointers!

The 7-12 student population has embraced the challenge of earning ‘2 pointer’ positive acknowledgements for their houses this term. Prior to the Swimming Sports on Wednesday 27th February (with points to be awarded for attendance and participation), the ‘2 pointer’ totals had Barwidgee and Buffalo very close, and Ovens streaking ahead (see graph). We look forward to an update after the points for the swimming sports have been added. Parents/students should be able to see ‘2 pointers’ awards on Compass and keep track of their individual tallies.

Upcoming events – excursions and incursions

We are now over half way through the term, with lots of events planned towards the end of the term. Below is an outline of events happening during the last 3 weeks of term – more information about specific events will be provided to students/parents closer to the dates and/or available via Compass.

Tuesday 19 th March	P4 Elevate Study Sensei session	Yr 11s, Yr 12s + some Yr 10s
Wednesday 20 th March	P2 Brad Tucker ANU astrophysicist/cosmologist	Yr 7-10
Wednesday 20 th March	P3 – 6 Pamper Day	Yr 12s
Thursday 28 th March	P5/6 Road Smart Presentation	Yr 10s
Wednesday 3 rd April	P1-6 ‘Just Think’ Day in Bright	Yr 8s
Wednesday 3 rd April	P3 ‘Love the Game’ anti-gambling Presentation	Yr 11s/Yr 12s
Wednesday 3 rd April	P4 ‘Love the Game’ anti-gambling Presentation	Yr 10s

OUTDOOR EDUCATION EXCURSION

The first of the Year 12 camps was held over two days last week. Students hiked from Howman's Gap camp to the top of Spion Kopje near Falls Creek and camped overnight at Edmondson's Hut. The start of the hike was extremely steep and challenging for all, with just over 1km of super steep gradient to the Alpine Walking trail. Once we reached the trail the gradient reduced, however, there was still another 3kms of uphill ahead for all the students to tackle. Students did a great job helping each other out and keeping the group together. Once we reached the top of Spion Kopje we could see the weather approaching so we had to move quickly, however we did not escape the storm and had to bunker in, hiding in an empty aqueduct. This proved to be a good option to get ourselves as low and protected as possible. It didn't take long for the storm to pass and we were back on the trail towards Edmondson's Hut. We arrived late afternoon in wet conditions.

The next day was very foggy and overcast, however the weather did improve throughout the morning. We continued our hike and finished at the dam wall at Falls Creek. The total hike distance was about 20km. We had lunch at Wallace Hut, one of the oldest historical cattle grazing huts in the high country. The focus on the camp was looking at how the Alpine environment has been used from Aboriginal times to now. The next camp will be in Lorne, on the coast, looking at commercialisation of the outdoors and environmental conflicts.

Clint Slotegraaf

Ashley's Corner

Last Sunday, I decided to learn a new skill. I picked up juggling balls, and just stood there giving it a couple of goes. Deciding to start something that I had never even tried before was a brand-new experience, one that taught me something I couldn't learn anywhere else. Doing something of your own volition, gave me something no school truly offers- Perseverance.

Most people tend to learn in different ways; be it reading, visual or maybe even trying it. You'll find that it tends to be thrilling to do something completely different. After a while you may find it to be rather frustrating, something called the learning curve. The dip is the struggle of grasping the skill, then it slowly climbs as you grow more accomplished at it.

I still find that the balls tend to fly further away from my hand when I toss them, and they love knocking into each other, but the idea of learning a new skill keeps me going. Why do I continue? Perseverance. Natural skill only goes so far, hard work is what truly makes something happen.

Ashley

HEALTH CORNER...with Adolescent Health Nurse Rosemary Bunge

The Year 10 history class continued to find out more about WW2 from residents at Myrtleford Lodge on Wednesday. The students were well engaged by the residents and really enjoyed finding out about our local area during that time. The residents are keen to share their history with the students and really enjoy their company.

Some of what we have learned from the residents:

*There was a POW camp at Whorouly and the prisoners were friendly and trusted, and were accepted as a part of the community. The POWs used to put on performances and the locals would attend and watch.

*In fear of Melbourne being bombed, many Melbourne school children were shipped to Myrtleford and other country areas to attend school. The Myrtleford students were sad to see them leave when they returned home after the war.

*There was a primary school up to Year 8 at Gapsted. When students had to get to Myrtleford to attend school, their mode of transport was a horse and gig.

*Merle was a young girl coming back from milking the cows at her home in Buffalo River when she saw a plane overhead. That plane later crashed on their land. She went over and took the pilot back to their house "for a feed".

*One resident witnessed the horrors of war while living in Amsterdam as a seven year old.

Year 6 headed to Myrtleford Lodge for their art lesson this week and got busy taking photographic portraits and stories about the residents. It was a great time of sharing and the Year six students were so excited to be visiting their friends again. I am really looking forward to seeing the portraits when all the editing is done. Great work Year 6 and Mrs Cartwright.

.....Rosemary Bunge

Quote for the week:

'Gaining knowledge is the first step to wisdom. Sharing it, is the first step to humanity.' - Unknown

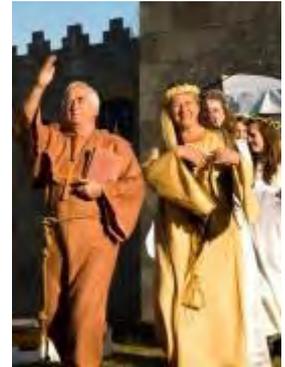

La Fiera Chess Match– We need more cast members!

Looking for cast members....

Most cast members will have no lines to learn. It will be mainly pretending you are in 1454 and reacting to what is going on around you.

Clapping and cheering, booing or jeering when prompted.

- **A sister** (main part)
- **Soldiers**-They will remain standing throughout the performance. Controlling any unruly characters, making reluctant chess pieces move or maybe even intimidating a crowd member or two.
- **Noble folk or wealthy people of Marostica**-will be required to come out of the castle when their names are called, do a circuit of the board waving like royalty, then take a seat.
- **Simple folk**- will enter the chess board prior to the match starting and just mingle and chat amongst themselves.
- **Unsavory characters, beggars or thieves**-doing just that, begging or thieving.
- **Individuals, couples and family groups.** Children will sit with parents during the performance and may be allowed to have the odd squabble. Kids may be playing, leap frog, hoops, knuckles anything 15th century, juggling.

Commitment to your role is a MUST, and involves turning up to practice. We will start with practice once a week and build up to twice if needed. Actual dates will be set very soon.

Practice will be at Club Savoy in the auditorium. Times have been set for Wednesdays and Thursdays 5.30 till 7.00pm. These days will alternate each week to try to accommodate everyone. We will have at least 2 practices on the chess board in the Piazza prior to full cast rehearsal/s.
