College Council – notice of election and call for nominations

The 2022 College Council elections for members of the Myrtleford P12 College will take place over the next few weeks. Detailed information for parents is included in this newsletter.

The College would like to thank Linda Lewis, Di Durling, Jo McIntyre and Sean Hynes for their input and commitment as your representatives on College Council. All outgoing representatives are eligible to nominate for another term.

There are four parent vacancies for this term. Nomination forms will be available at the general office at the school from next Wednesday 2nd March and must be lodged by 4 pm on **Friday 11th March, 2022**. If there are more nominations than vacancies an election will be held. We will advise of the timing of the next meeting of College Council once the election process is complete.

Changes to COVID processes

As you may have read, as of Monday 28th February, students and staff in Years 7 to 12 will only be required to wear masks if they enter a primary school classroom or the office area. Students in Years 3 to 6 will continue to wear masks in class. The government will continue to provide schools with Rapid Antigen Tests for the remainder of this term. Parents are asked to ensure that students test twice a week. You can pick up your test kits from the front office.

Swimming sports

Both the primary and secondary swimming sports were held last week. The weather was perfect and both days were a great success with good attendance rates. They were really enjoyable and fun days with students engaging in hotly contested races and novelty events. Well done to the students who participated. The age group champions are recognised in this newsletter. Thank you to Clinton Slotegraaf, Donna Bigger and their respective teams for their work on the day and the organisation of the events.

NEW STAFF in 2022

We have a number of new staff this year. Here's a snap shot of a few of them.
More to come in future newsletters.

Name: Amber Baker

Teaching subjects/working area: Psychology 9-12, 9 Humanities, VCAL Work Related Skills & Year 9 Mentor.

About me: I moved from Werribee to the North East five years ago for my first teaching job out of Uni and fell in love with the weather, natural landscape and events on offer, so I decided to stay along with my mini sausage dog, Meeko.

Something I enjoy doing out of school: I enjoy going out to dinner, having picnics, going on walks and to the movies with friends and family. Pre-COVID times I loved to travel and have visited Thailand, Pacific Islands and toured around Europe for eight weeks. Now I think travelling has been replaced with bingeing Netflix!

Personal message: I want to thank all the students and staff for being so welcoming in my first two weeks at Myrtleford P-12 College. I am so pleased to have kind and helpful students and I look forward to many more happy teaching days and developing each students' social and academic learning.

Name: Melody Gabriel

Teaching subjects/working area: Science

About me: I love Chemistry, Science and problem solving. I have been teaching 20+ years but took a few years out following the birth of my son. I am originally from the UK (Northern England) so have an 'interesting accent'. I have been in Australia for 18 years and in the Alpine area for 8 years.

Something I enjoy doing out of school: I really enjoy spending time with my small family including my two whippets 'Sooty & Sweep'. I love walking, jogging, skiing, bike riding and I can't wait to get back to travelling.

Personal message: I've been made to feel very welcome by the MP-12 school community. Only being available two days can make that difficult but I have really enjoyed the last few weeks. I look forward to deepening connections and answering interesting Science questions.

Name: Laura Scopel

Teaching subjects/working area: Year 9 Maths and Humanities

About me: I went to high school in Beechworth, then went to university to study Science followed by Education. Since then I have moved around living on the Gold Coast and Melbourne, then returning to Beechworth after I had my two sons. One is in Grade 2 and the other beginning Prep/Foundation this year.

Something I enjoy doing out of school: Out of school I enjoy going for walks, bike riding, swimming, cooking and eating out.

Personal message: I have been three days at Myrtleford P-12 so far and I have felt a wonderful, positive vibe in the school. I have felt very welcomed by both students and staff and I am really looking forward to the year ahead!!

Parent Information on School Council Elections

2022 School Council Elections - Information for Parents

What is a school council and what does it do?

All government schools in Victoria have a school council. They are legally formed bodies that are given powers to set the key directions of a school within centrally provided guidelines. In doing this, a school council is able to directly influence the quality of education that the school provides for its students.

Who is on the school council?

There are three possible categories of membership:

- **A Mandated Elected Parent Category.** More than one third of the total members must be from this category. Department of Education and Early Childhood Development (DEECD) employees can be Parent members at their child's school as long as they are not employed at the school.
- **A Mandated Elected DEECD Employee Category.** Members of this category may make up no more than one third of the total membership of school council. The principal of the school is automatically one of these members.
- **An Optional Community Member Category.** Its members are appointed by a decision of the council because of their special skills, interests or experiences. DEECD employees are not eligible to be Community members.

The term of office for all members is two years. Half the members must retire each year, creating vacancies for the annual school council elections.

Why is Parent membership so important?

Parents on school councils provide important viewpoints and have valuable skills that can help shape the direction of the school. Those parents who become active on a school council find their involvement satisfying in itself and may also find that their children feel a greater sense of belonging.

How can you become involved?

The most obvious way is to vote in the elections, which are held in Term 1 each year. However, ballots are only held if more people nominate as candidates than there are positions vacant. In view of this, you might seriously consider standing for election as a member of the school council or encouraging another person to stand for election.

Do I need special experience to be on school council?

No. What you do need is an interest in your child's school and the desire to work in partnership with others to help shape the school's future.

What do you need to do to stand for election?

The Principal will issue a notice and call for nominations following the commencement of Term 1 each year. All school council elections must be completed by the end of March.

If you decide to stand for election, you can arrange for someone to nominate you as a candidate or you can nominate yourself in the Parent Category.

DEECD employees whose child is enrolled in a school in which they are not employed are eligible to nominate as parents for the school council where their child is enrolled.

Once the nomination form is completed, return it to the Principal within the time stated on the notice of election. If there are more nominations received than there are vacancies on council, a ballot will be conducted during the two weeks after the call for nominations has closed.

Remember

- Ask at the school for help if you would like to stand for election and are not sure what to do
- Consider standing for election to council this year
- Be sure to vote in the elections.
- Contact the Principal for further information.

BREAKFAST CLUB

Tuesday in the SLA for cheese toasties

Thursday in the canteen for fruit cups, toast and cereal

Breakfast is FREE and available for everyone to enjoy

Parents Club News.....

Welcome back to the new year!

Parents Club will be holding their AGM in the Prince Street staffroom on Thursday 10th March @ 5.30pm.

Light refreshments will be provided.

Looking forward to welcoming back old faces along with many new ones. Without the support of many parents our fundraising efforts cannot be achieved. Many hands make light work.

It would be appreciated if you could RSVP on

mp12parentsclub@gmail.com, or alternatively, just turn up.

Covid rules require parents to be triple vaccinated before entering buildings.

Privacy Statement

Our school collects, uses, discloses and stores student and parent personal information for standard school functions or where permitted by law, as stated in the [Schools' Privacy Policy](#).

Please take time to remind yourself of our school's collection notice, found on our website [Privacy Policy - 1. Schools.pdf \(myrtlefordp12.vic.edu.au\)](#)

For more information about privacy, refer to: [Schools' Privacy Policy — information for parents](#). This information is also available in nine community languages:

Amharic, Arabic, Dari, Gujarati, Mandarin, Somali, Sudanese, Turkish, Urdu, Vietnamese.

COLLEGE ANNOUNCEMENTS

COVID requirements

To support our efforts to keep all students and staff safe at our school, there are a number of requirements in reference to COVID 19, and some recent changes.

Rapid Antigen Tests

Rapid Antigen Test packs can be collected by a parent/carer from the front office. It is still recommended that testing take place at home, twice weekly. After doing the tests at home, if it is positive, you will need to:

- let the school know
- keep your child at home for 7 days, along with household contacts
- contact the Department of Health via the [COVID-19 Positive Rapid Antigen Test Self-Reporting Form](#) or call the centre on [1800 675 398](tel:1800675398).

Information about how to do a test and how to read RAT results, including a how-to video translated into 33 languages, is [available online](#).

Vaccination Requirements

Parents and carers must be fully vaccinated with COVID-19 or have a valid medical exception to enter school buildings. Proof of vaccination and QR coding will be required upon entering school buildings. Parents are asked to enter the buildings via the front office initially.

COVID-19 vaccinations for students are not required for them to attend school but vaccination for students is highly encouraged. For more information on how to book a vaccination, including important information about vaccination for children aged 5 to 11, visit [Vaccination information for children and teenagers](#).

Management Of Unwell Students

Please do not send your child to school if they exhibit any of the following symptoms:
Fever, chills or sweats, cough, sore throat, shortness of breath, runny nose, headache.

If your child presents with any of these symptoms whilst at school, we will make contact with you to collect your child and you will be required to perform a Rapid Antigen Test on them.

VISITING SCHOOL BUILDINGS

If parent/family member is entering a school building, they **MUST sign in at the front office and show proof of vaccination**.

FACE MASKS

Whilst on site, parents, family members and visitors must abide by the current Chief Health Officer's orders, including social distancing and the wearing of face masks.

Recent changes to face mask directives will come into effect from Monday 28th February. Students in Years 3-6 and primary staff will be required to wear face masks whilst indoors. Visitors to Primary buildings will also be required to wear face masks.

We thank you for your cooperation and support in maintaining a safe environment for our students and staff.

HEALTH CORNER...with Adolescent Health Nurse Rosemary Bunge

Senior school wellbeing

It is important for students to know how to keep mentally and physically healthy and the importance of knowing where to get help and getting help early if things aren't quite right.

While these are big years for them at school and study, I would like to remind senior students this is their life, here and now. I encourage them to enjoy and experience each moment and find what works for them to cope with stress.

Stress management tips

- Take care of yourself. Eat a healthy diet, exercise regularly and get enough sleep.
- Do at least one activity every day that you find relaxing – for example ; aromatherapy, going for a walk, listening to music, gardening, reading for enjoyment, keeping a personal journal or diary.
- Discuss your problems. Talking to someone else often puts problems into perspective. Talk to other students, friends, family members or a student counsellor. Don't be afraid to ask for help if you need to.
- Work out which issues are causing the stress and try to address them. For example, if you are having problems with a particular subject or assignment, talk to your lecturer or other students about it. If, despite your best efforts, you feel you are slipping behind, you could get help from a teacher.
- Have a plan to manage stress around assessment and exam times. A good long-term strategy to deal with exam stress is to manage stress across the whole academic year.
- Learn a relaxation technique such as breathing exercises, muscle relaxation, yoga, or meditation, and set aside at least 20 minutes each day to practise it. You may have to experiment with a few different techniques before you find the one that works best for you.
- Focus on your strengths. You could keep a list of things that you are good at, your achievements and successes, and refer to it to give your self-esteem a boost.
- Keep your life in balance – it's an important key to managing stress. Burnout can be caused by focusing on one aspect of life to the exclusion of all others. Schedule fun and enjoyment into every week and allow time for family and friends along with your study. Put this into your study timetable.

Make time management and getting organised important to you. Remember that you are less likely to worry if you plan.

How can you find a health professional?

Health professionals can be accessed through:

- your local doctor
- school wellbeing team
- [headspace](#) centres

Some online and phone supports

- Online chat beyond blue [chat online\(3pm - 12am\)](#) www.youthbeyondblue.com
- Phone **1300 22 4636(24 hours)** youthbeyondblue
- Headspace www.eheadspace.org.au
- Phone 1800 650 890 headspace

Quote for the week: If you are always racing to the next moment, what happens to the one that you're in?

Breakfast

Breakfast continues to run this year and it will be on Tuesdays and Thursdays. You can find us in the SLA on a Tuesday with cheese toasties. On Thursday find us at the canteen with fruit cups, cheerios, toast and spreads to eat and milo, milk and juice to drink. Don't forget to get your day off to a great start it is free, all you need is a smile. All welcome.

Girl Loses All of Her Teeth Because of Chocolate.

By Lily Picciocchi.

A girl from Myrtleford, Victoria has lost every single one of her teeth! A few days after the beginning of 2022, her last baby tooth fell out when she was eating a very chewy chocolate. Afterwards, she discovered another one hidden under her sofa.

"Throughout the next hour, she just kept on chewing." her mother said. "Until, all of her teeth fell out!" This is only the fifth known case ever in the world.

Policeman Frank Chang is currently investigating the matter. "Evidence shows that a rival chocolate company is trying to ruin Cadbury's one hundredth birthday by making chocolate that is sticky enough to pull people's teeth out." Frank said.

"We would prefer to not disclose the rival company but advise everyone to not eat any unknown brands of chocolate." It turns out that every single case of this happening has occurred during this new year.

"They're trying to ruin Cadbury's business," said a chocolate lover. "Lock them in jail and throw away the key!" their very angry friend commented.

In the past week, there have been two court cases against the company. Stay tuned for more information including the name of the company and what happened in court.

Girl dies by poisonous crab

By Meyah Cunnington

Girl dies by getting bit by a poisonous crab. 11 year old Meyah Cunnington and her family were on a relaxing coastal holiday. While visiting the beach, Meyah and Pippa looked in rock pools until suddenly Meyah got bitten! She never wants to look in rock pools ever again! Meyah was just trying to find creatures that can't hurt her and cool looking seashells.

Her sister touched a crab and didn't get bitten. "My sister got bitten and I didnt!" Pippa screams. "This is unfair," I whisper. Mum said that I will survive, but I don't think I did because I'm writing this news report from heaven.

Belinda - my step mum - said that I was exaggerating when I got back to the warm and cosy cabin. I jumped in my nice warm bed and went on my iPad. I put sand all through my bed and had a nice long nap. I woke up in throbbing pain. Mum said I'll be fine but I moved to the couch and started to fall asleep again but this time I wasn't falling asleep I was going to heaven! I tried to wake back up but I couldn't. I was dead still. I tried to speak but I couldn't. My lips were shut, my eyes were starting to be blurry. Then I realised that I am dead. It felt nice in heaven, but I wanted to be with my family.

I didn't even get to swim in the beach for the first time! I am so sad.

BREAKING NEWS

Child gets mauled to death by sharks!!!

By Louis Sanderson

On Tuesday the 8th of February, Louis Sanderson and his class mates went to the Melbourne Aquarium for a school excursion. They had seen all the normal fish and things like that, but then they were taken on an EXCLUSIVE tour of the shark tank. This tank had more than 50 sharks! As an enthusiastic Louis leaned over the railing into the tank FULL of sharks, his friends pushed him in!! And then laughed as he was mauled to death limb-by-limb. Delight spread across their faces like butter on eggs.

BREAKING NEWS child gets mauled to death by sharks!!!

This morning at 11am, Louis Sanderson was on a exclusive tour of the Melbourne Aquarium with a school trip when he was pushed into the shark tank and killed limb-by-limb to the delight of everyone in the room. The kids responsible are currently awaiting trial for the murder of Louis.

Breaking News!

By Harris Bruneau

A fully grown orangutan jailed for allegedly slapping a 10-year-old local child at the zoo.

The 43-year-old mother had an outburst after her son's Bluey glasses got stuck in a tree as he was flung into the tiger pen across the zoo! The Mother is right now trying to sue the zoo for unsafe cages and... *treason? Yes treason... and the child (Louis Sanderson) is threatening to press charges on the orangutang. I'm here with eye witness Jake Jennings live at the scene, "Yes not very good at all, the orangutang just went "SLAP" against a poor boy's face, his mother nearly had a heart attack when he landed in the tiger pen". "Thank you, Jake, and here is the news at 6"*
(Music plays).

People Try to Save Girl from Shark in River but Get Fined for Using Guns.

By Nia Lewis

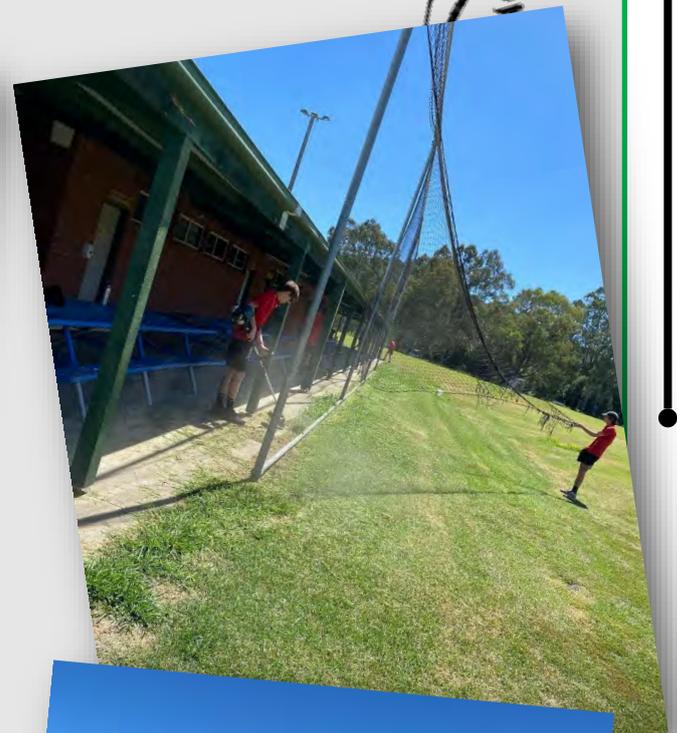

Breaking news! 10-year-old girl, named Lily Picciocchi, was getting saved from the sharks in the river by police men. They shot a shark and got a 3 trillion billion million dollar fine for shooting a protected shark!!! The girl was very angry that they tried to save the shark that the police man accidently shot INSTEAD of saving her.

VCAL at the Soccer Club

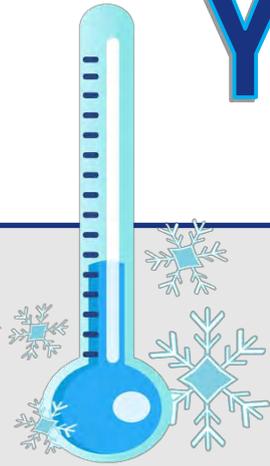

Last Friday Mr Murray took the VCAL class to do some voluntary work at the Myrtleford Savoy Soccer Club.

It was such a great help and very much appreciated. The students were very engaged and were able to complete a number of different tasks that were needed to be done.

Danielle Caponecchia

Year 11 Physics

This week in Physics 11 we had the thermodynamics cooling championships. Students had to build a fridge with a selection of materials and compete to see who could cool their drink to the lowest temperature. The winning team cooled their drink by nearly 15 degrees in 10 minutes!

Lia Mitchell

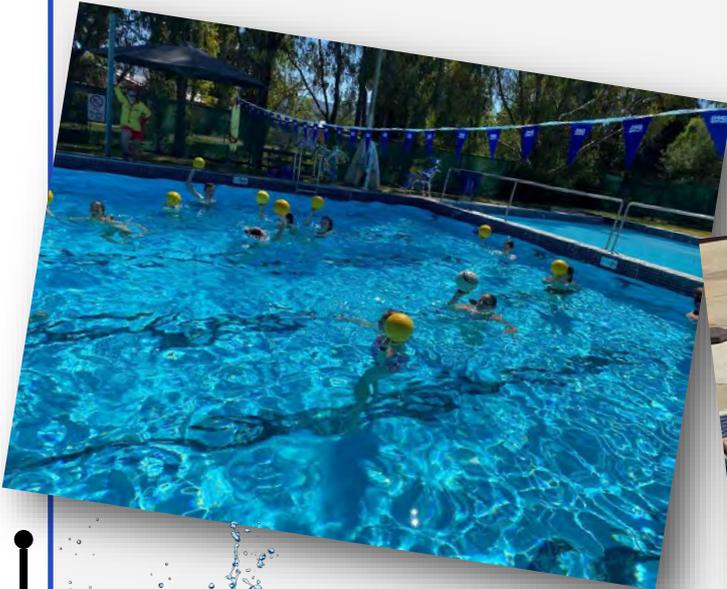

Year 7/8 Water Polo

Over the past three weeks some of the students in the Year 7/8 PE class elected to do water polo at the swimming pool. They learnt some basic skills and rules of water polo including how to keep possession of the ball while swimming. The students realized the strength and stamina needed to tread water and play the game was a lot harder than it looks.

Those that participated had a great time.
Mrs Sanderson, Danielle Caponecchia

Oobleck Science!

Students in 8A immersed themselves in the sensory experience which is Oobleck. Students are currently exploring the topic 'States of Matter'. Today they made Oobleck! Oobleck is a non Newtonian fluid or liquid. Under pressure it behaves like a solid, but remove the pressure and it turns to liquid, very bizarre and lots of fun for students of all ages.

Students squeezed it to make a firm solid ball then released pressure and it trickled through their fingers. Some other interesting non Newtonian fluids are quick sand and ketchup but these work in the reverse manner to oobleck, that is under pressure they behave more like a liquid.

solid ball then released pressure and it trickled through their fingers. Some other interesting non Newtonian fluids are quick sand and ketchup but these work in the reverse manner to oobleck, that is under pressure they behave more like a liquid.
